PROJET DE DECISION / DRAFT DECISION

Canteen: implementation of the 50 cents reduction per meal

The GA approved in its last meeting on 14.01.2016 the proposed reduction of the price of the hot meals in the canteen as a consequence of the substantial profit the canteen is making in the past 2 accounting years. A reduction of 50 cents was calculated in the budget applicable from 1st January 2016.

The Executive Committee agreed to propose the following vote to be taken by the Board in February 2016:

Apply a flat-rate reduction of 0.50 € per meal for the second and third terms of the current school year.

The Executive Committee has also discussed the proposal made by the working group of the canteen sector to adopt a differentiated price policy for the canteen service taking into account circumstances such as the age of the students (different prices for maternelle, primary or secondary students) or the loyalty (number of days the students are enrolled to the canteen service). The price differentiation is already applied in all European Schools in Brussels and Luxemburg.

However the Executive Committee agreed on postponing the discussion and the decision on a differentiated price policy for the canteen service for a later stage for the next school year.
